Spanish Bluebells

Hyacinthoides hispanica 'Excelsior'

25 bulbs for \$ 23.00

These late-blooming spikes of lavender-blue flowers are great for naturalizing under shade trees. Blooming in later spring, we have a nice showing of them under the sycamore in Kathie's Spring Garden. Naturalizes well and will spread. Foliage will go dormant in the summer, so it does well with late flowering summer perennials.
